USER MANUAL

Functions:
- **USB Type-C input:** Here you need to connect the included charging cable to power CHARGEit Stand Dock.
- **Power-On LED indicator:** The green LED light will switch on for 10 sec when the charging cable is plugged in
- **Wireless Charging LED indicator:** The blue LED light will switch on for 30 sec when wireless charging is active

FIRST USE

1. Connect an adaptor to a power outlet. See page 6 for a guide to choosing the correct adaptor
2. Connect the included cable (USB side) to the adaptor
2. Plug the USB-C side of the charging cable in to CHARGEit Stand Dock

CHOOSE CORRECT ADAPTOR FOR CHARGEit Stand Dock

Choosing the correct adaptor is very important for your safety and the function of CHARGEit Stand Dock. There are different options for adaptors as described below:

1. QC1.0 output 5V/2A (for example the standard Apple adaptor)
2. QC2.0 output 5V/2A, 9V/1.67A
3. QC3.0 output 5V/3A, 9V/2A, 12V/1.5A

SACKit recommends that you choose a QC2.0 or QC3.0 adaptor to achieve the best stability and function of CHARGEit Stand Dock. Using the QC1.0 adaptor might result in an overheated CHARGEit Stand Dock or device and might damage the product. SACKit will not be responsible for any issues or safety hazards arising from the use of a QC1.0 adaptor. QC2.0 and QC3.0 adaptors can be purchased on various websites.

TROUBLESHOOTING

If you have trouble using your CHARGEit Stand Dock we ask you to try the following solutions. If these solutions does not fix your problem please contact our customer service at info@sackit.dk.

CHARGEit Stand Dock charges slowly
- Check that all cables are connected correctly
- Make sure you have chosen either a QC2.0 or QC3.0 adaptor

The blue LED indicator is blinking and the phone is not charging
- Make sure your phone is placed correctly on the X in the middle of CHARGEit Stand Dock
- Power ON/OFF your phone and retry
- Make sure your phone supports wireless charging

I feel CHARGEit Stand Dock is charging my device too slowly
- CHARGEit Stand Dock only supports Fast Charging if your device supports the feature. Also you need to use a QC2.0 or QC3.0 adaptor. See page 6

My device or CHARGEit Stand Dock is very warm
- You need to ensure you have chosen the correct adaptor for CHARGEit Stand Dock. See page 6 for a guide
- The wireless charger must not be covered as this might result in overheating

CLEANING OF THE PRODUCT

1. Kindly switch off CHARGEit Stand Dock before you clean it and remove it from the power supply
2. Do not use any chemicals to clean the product. If you need to clean the power bank please use a soft cloth with a mild cleaner
3. During cleaning please be aware to avoid water in the USB port. Large amounts of water and fluids may damage CHARGEit Stand Dock
